

CFPB Credit Card Complaints — January 2025

Source and metric notes

Source: CFPB Consumer Complaint Database. Scope: credit card complaints received January 1–31, 2025, from the downloaded dataset.

Timely response (%) = $\text{Yes} \div (\text{Yes} + \text{No}) \times 100$. Records with unknown timeliness are excluded from this denominator; this dataset has none.

“Responses marked not timely” counts 26 records with Timely response = No. The separate company response category “Untimely response” contains 8 records.

Complaint counts do not represent all credit card customers. Timely response does not measure customer satisfaction or resolution quality.
